

Dr. Frank Lim
Principal Director
2H Offshore Engineering Ltd
1-7 Cherry Street
Woking
Surrey GU21 6EE
United Kingdom

Frank Lim is Principal Director of 2H Offshore, a company that has pioneered technologies for riser systems that are now deployed in deepwater regions around the world. Dr. Lim's offshore oil and gas career began in 1983 upon graduation in the UK, and continued through numerous projects in the North Sea, Gulf of Mexico, West Africa and Brazil, until recently when he turned his interests to deepwater projects in the Asia Pacific, supporting them from the 2H Kuala Lumpur regional office he set up more than a year ago. A fellow of the British Institution of Mechanical Engineers, he is a regular author of technical papers and speaker at conferences.
