

## CALL FOR PAPERS

ASME/IPTI Presents

*The 5th International Offshore Pipeline Forum*

**“Pipelines: Energizing the Economy”**

**October 20 – 21, 2010  
Norris Conference Center  
Houston, Texas, USA**

This forum will address the ever increasing challenges we face in our industry and the need to retain and transfer knowledge to the next generation of projects and people.

Papers and presentations will focus on new methods and technologies, best practices, lessons learned and the latest regulatory requirements and will feature opportunities to meet industry leaders, exchange ideas, and network.

The forum is ideally suited to Oil/Gas company executives, managers, engineers, and contractors.

*Topics to be considered in the sessions of this forum will include:*

- *Construction/ Installation*
- *Emergency Response*
- *Export Pipelines*
- *Flow Assurance (New for 2010)*
- *Flowlines*
- *Integrity, Maintenance and Repair*
- *Operations*
- *Regulatory / Compliance*
- *Risers*
- *Risk, Safety & Reliability*

**Submit your abstract by June 11, 2010.**

**Authors will be notified by June 25, 2010.**

*Please contact us at [iopf@asme.org](mailto:iopf@asme.org) with questions.*

*Please submit your abstract to*

Once an abstract is formally accepted we will ask the participating authors to prepare a paper to be reviewed for publication in the conference proceedings. *Draft papers to be submitted by mid September; final papers will be due October 1st.*

**For more information on ASME guidelines and copyright information see our website at [www.asme-ipti.org](http://www.asme-ipti.org). Selected papers will be further reviewed for publication in an ASME Journal.**
