

Tim Sylvester

Tim holds a BS in Chemical Engineering from the University of Maryland and an MBA from Tulane University.

After gaining 24 years of experience in engineering design, operations and business development for various divisions of Shell Oil Company, Tim joined IONIK Consulting (a materials engineering and integrity management company) as VP – Americas in 2007.

Tim is a registered PE in Louisiana and has worked on numerous projects related to asset and pipeline integrity for operators worldwide. Before leaving Shell, he was responsible for the business development and delivery of Shell Global Solutions Integrated Pipeline Solutions efforts in the United States and Latin America.

Tim is married with two sons and lives in Katy, Texas.
